

We are seeking a skilled Welder to join our Metcore Industrial Solutions team!

#### **JOB SUMMARY:**

First-shift welding position responsible for permanently joining metal parts and/or assemblies together using (MIG) and/or (TIG) welding applications to form a permanent bond.

#### **RESPONSIBILITIES:**

- Operates safety equipment and uses safe work habits while performing job function
- Work in a safe and efficient manner
- Clamps, holds, tack-weld, grind, or bolts component parts to obtain required configuration and position for welding
- Welds components in flat, horizontal, vertical, or overhead positions
- Sets up and operates welding equipment for most efficient operation
- Operates welding equipment to join metal components together using processes such as gas tungsten arc welding (GTAW), also known as tungsten inert gas (TIG) welding and gas metal arc welding (GMAW), sometimes referred to as metal inert gas (MIG) welding
- Monitors the fitting, burning, and welding processes to avoid overheating of parts, warping, shrinking, distortion, or expansion of materials
- Examines work pieces for defects and measures work pieces with straight edges, templates, and/or tape measure to ensure conformance with order specifications and/or drawings
- Recognizes set up requirements and operates hand and power tools common to the welding trade such as grinders, belt sanders, clamps, vises, pull-bars, etc.
- Position, align, lay out, and secure parts and assemblies prior to assembly using straight edges, combination squares, calipers, and rulers.
- Uses caution to avoid damaging the parts and/or equipment
- Reads and interprets blueprints, engineering specifications, and shop orders to determine machine setup, welding method, and sequence of operation
- Keep machine clean and in good working order
- Keeps up with routine machine maintenance according to manufacturer's recommendations
- Inspects or measures work, using rule, gauges, calipers and templates
- Follow established safety, environmental and quality policies, procedures and practices
- Maintain work area and shop tools/equipment
- Maintain daily time records
- Other job duties as assigned by supervisor

#### **BASIC QUALIFICATIONS**

- Required experience:
- High School Diploma/GED
- Ability to read, write, and general comprehension
- Ability to use measuring equipment and read blueprints and schematics
- Previous welding experience preferred
- Experience with (MIG) and (TIG) welding
- Additional sheet metal fabrication experience a plus

- Vocational training in lieu of experience would be considered
- Basic computer usage knowledge.
- General knowledge of at least one of the following desired: Mechanical and/or Manufacturing / Production processes

If you have the skills and experience required for this position, we encourage you to apply. We offer competitive pay based on experience along with benefits such as health insurance, retirement plans, and paid time off. Join our team of skilled professionals and take your welding career to the next level!

Job Type: Full-time

Benefits:

- 401(k)
- 401(k) matching
- Dental insurance
- Health insurance
- Life insurance
- Paid time off
- Parental leave
- Vision insurance

Shift:

- 10 hour shift (Mon-Thurs)

Ability to Relocate:

- Metcore Industrial Solutions, Williamston, NC 27892: Relocate before starting work (Required)

Work Location: In person
